**Commissioner for Patents**

This communication has enclosed within, copies of the signed Information Disclosure Statement filed 7/2/01 updated to reflect the consideration of Item 1H. Document 1H recites the heading "Conducting a Redundant Route for Network Resiliency" However, the cover page of the submitted reference on page 26 recites "Configuring Boundary Routing System Architecture" while page 27 recites the heading "conducting a redundant route for network resiliency" as recited in the IDS. It is believed that this mislabeling caused the reference to not appear in the eDAN electronic record, though it may have been previously submitted. These IDSs were previously considered and do not change the status of the claims.
